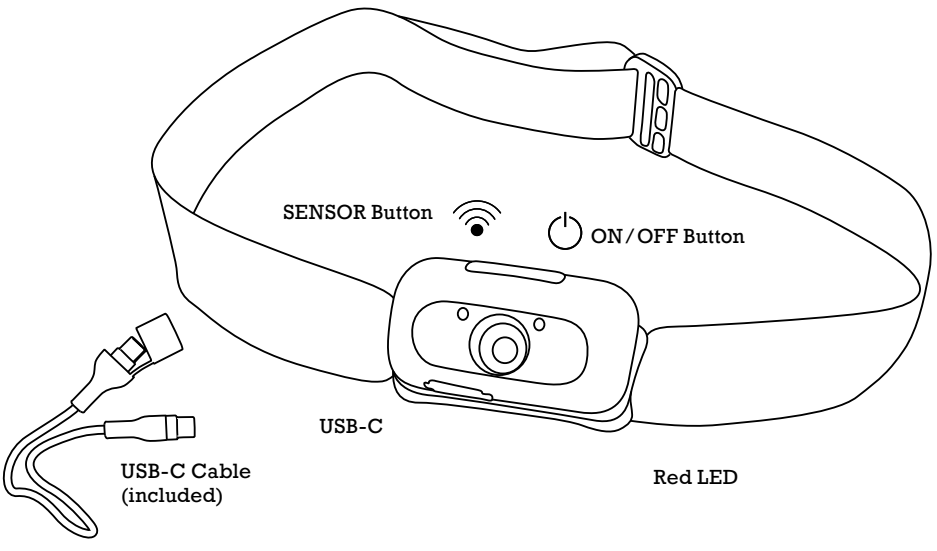
HEAD+BEAM 100

HEADLAMP

+ HANDY SIZE.

The always there lamp

Pocket-size! Admittedly, by today's 'standards', 100 lumens of lighting power is not the brightest a lamp can offer. But it doesn't have to be. 100 lumens is sufficient for most activities, especially when it's not about speed (MTB or trail running). On the other hand, the HEAD+BEAM 100 is a lamp that fits neatly in your trouser pocket and can always be taken with you, weighing as little as 58 grams. And: the power is convincingly long, charging is incredibly easy thanks to USB-C and it is so affordable that you can 'deposit' one or two lamps at important points. Just in case.



+ THE PLUS DISTINGUISHES.

Essential Elements is the reliable brand from Switzerland with the plus for the well thought out details. Our products are: useful + practical and "as green as possible".

Made with recycled materials
